The International Conference on Innovation Intelligent and Smart Systems (ICIIST) will provide a large platform for academics, researchers, students, and industry engineers to exchange thoughts and expertise about four tracks Intelligent Systems, Networking and Cyber Security, Smart Systems and Electronics. The bottom line of the conference is to appreciate articles which mainly highlight recent trends, challenges, opportunities in order to shed new light on potential avenues for change and to better the lives of ordinary citizens.

Bring together the international level professionals to share fresh research discoveries in Intelligent Systems, Networking and Cyber Security, Smart Systems and Electronics, expand our understanding of cutting-edge technology, and foster international scientific and community collaborations while collaborating with other professional groups.

Have a technical talk in addition to the assigned reading.

ICIIST -2024 invites papers of research on the following tracks:
